## THE MICHIGAN FUTURITY

The Michigan Department of Agriculture sponsors a series of purebred beef cattle shows and sales to further the development of good livestock within the state. The Michigan Shorthorn and Polled Shorthorn Futurity is an approved show. Accordingly, the exhibitors will be showing for more than \$2,000 in premiums on sale morning. Judge is the capable Frank Kaehler of Homedale Farm, St. Charles, Minn., who just exhibited the grand champion bull of the big Iowa State Fair.

## WELCOME TO MICHIGAN

This is the livewire state association. It's made up of cattlemen and cattlemen who really believe in getting things done. This sale was founded in 1966 by people who believed in Shorthorns and Polled Shorthorns and believed in their own promotion and merchandizing. Today the sale has grown to be one of the leaders among state associations. Illinois and Iowa may be bigger in terms of total cattle, but for sheer enthusiasm and real quality, Michigan takes a back seat to no one.

The Michigan herds have produced cattle known internationally. Moreover, there are many top bulls in service here. We don't mean this lightly because the Michigan breeders don't take their business lightly. They are serious breed improvers and that's the kind of bulls they buy.

Be their guest on October 16 and see for yourself.

## 20 STEERS SELL

Twenty good purebred Shorthorn steers will sell immediately following the conclusion of the breeding cattle sale. The calves will come from the leading herds in Michigan, and are ideal projects for next year's 4-H or FFA projects. The interest in the Shorthorn breed has greatly advanced in the past twelve months. With the problem of the exotics not grading, it's definitely assured that straight-bred cattle will again command the winner's circle at local and national shows. Your consideration of this offering may well be a beneficial step in the right direction.

# STANDARD GUARANTEE

## Recommended by American Shorthorn Association

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not selling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of a freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.
